2. Please list your chosen or anticipated field of study and explain why you believe the field is important.

Growing up in a family filled with aviation, with my mom being employed as a flight attendant, I have developed a great love for travel, along with seeing the world and experiencing other cultures. That love for travel, connection, and lifelong learning has now emerged into my very own career goal of becoming a pilot for a commercial airline.

Of all commercial airline pilots, currently, only a small 7% are women. This is something that I believe demands an increase. I am looking to grow a rewarding career, where I can not only make a great living for myself doing my passion but take my mom along with me to do our passion...seeing, learning, and loving other cultures around the world. I aspire to be self-sufficient and successful in my career, but also inspire other young, female aviators to see the world, accomplish their goals, and reach their dreams, from the flight deck and beyond.

I am thrilled to spend my college years learning to navigate the friendly skies and as I move into my next chapter of life, I am looking to build a livelihood that will not only be diverse and fulfilling but also allow for time for involvement in the youth, political, business world, as well. I would even love to be a youth sports coach one day soon. A college degree certainly allows for more opportunity in the workforce and diversity in knowledge and skillset, which is why I chose to go the university route for my aviation career. I believe knowledge is power and I wanted to take every educational opportunity I could.

3. How does Parks and Recreation have an impact on a community? How has it impacted you personally?

Parks and Recreation not only fosters unity and comradery in a community through events and gatherings but encourages healthy living habits and a culture of teamwork and empowerment through both recreational activities and competitive sports. Personally, some of my dearest friends were made through sports. I have so many sweet memories from my years of track and swimming with TAAF, but one stands out the most. My junior year of high school, I discovered my passion for hurdling as a track athlete. My first meet, I placed 2nd, and was thrilled for the next meet, which was the district competition. However, after the gun went off, I made it about halfway and was in the lead. When I got to the fourth hurdle, I tripped and hit the ground. Since I had been so excited for this meet, this loss hit me hard and I spent a lot of time in tears that night. However, after the conclusion of the season, I joined a summer club track team because I was eager to work on my technique and consistency, so I could avoid devastating mistakes such as the one at district. I placed 4th at regionals, qualifying for state in the 300m hurdles. I then put in consistent work on my own in the summer mornings leading up to the state competition. This allowed me to come back thriving with an over 3 second PR and a 5th place finish in the TAAF Summer Games. Using my setback as motivation to work hard and better myself proved very fruitful.

4. If awarded this scholarship, how would you utilize your educational experience to make an impact on the parks and recreation / leisure services profession in your community or society as a whole?

I believe in living life as a multi-faceted individual. As a pilot, cheerleader, waitress, athlete, youth mentor, student, and local Miss Texas titleholder, I truly have so many avenues to be a blessing and inspiration to others and I desire to not take any opportunity for granted. I will continue my commitment to fostering unity and health in my community through volunteerism, parks/recreation involvement, and attendance at community events. I have a passion for athletics, recreation, and community, and I cannot wait to continue my involvement and give back to those now coming after me.

5. Explain your career goals upon graduation.

I plan to become a commercial pilot for an airline. I would also love to continue working with youth in some capacity, such as recreational sports coaching, etc.

6. Are there any other factors you would like us to consider in evaluating your application? If so, please explain.

In addition to tuition, room and board, and fees, flight hours are a substantial and additional financial burden. Receiving this scholarship would help offset this cost and allow me to pursue my dreams without this stressor. This award would truly be a blessing from an organization I love and value.

To whom it may concern,

It is with absolute ease and certainty that I recommend Sydney Reardon.

I had Sydney in Introduction to Psychology spring 2024. Not only did Sydney score the highest in the class, but she also received more points than any student I have had in the last 10 years. She missed one question on the first test, zero questions on the next two tests, and wrote a research paper that could easily pass as a junior or senior level paper. She had perfect attendance as was consistently pleasant and engaged in the classroom.

As clearly indicated by her resume, she has already established herself as a leader on campus. Between SGA, Cheerleading, and her engagement with groups connected to her major, I can't remember seeing someone this involved and maintaining a 4.0 grade point average. In recognition of her efforts, Sydney was selected as a Top Ten Freshman in fall 2024.

She is responsible, personable, and dependable. I would recommend her without the slightest of reservations.

Please don't hesitate to let me know if you have any other questions.

Sincerely,

Dr. Tim Boatman

Vice-President, Emeritus

Adjunct Instructor of Psychology and Native American Leadership
